

Tides: Biloxi (Point Cadiz), Biloxi Bay  
 January 2007

State has control up to the mean high tide line, but no way above that on private land.

Aquatic weed management in navigable waters

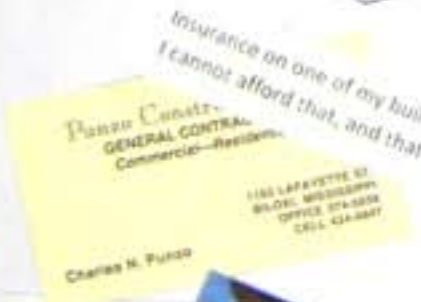

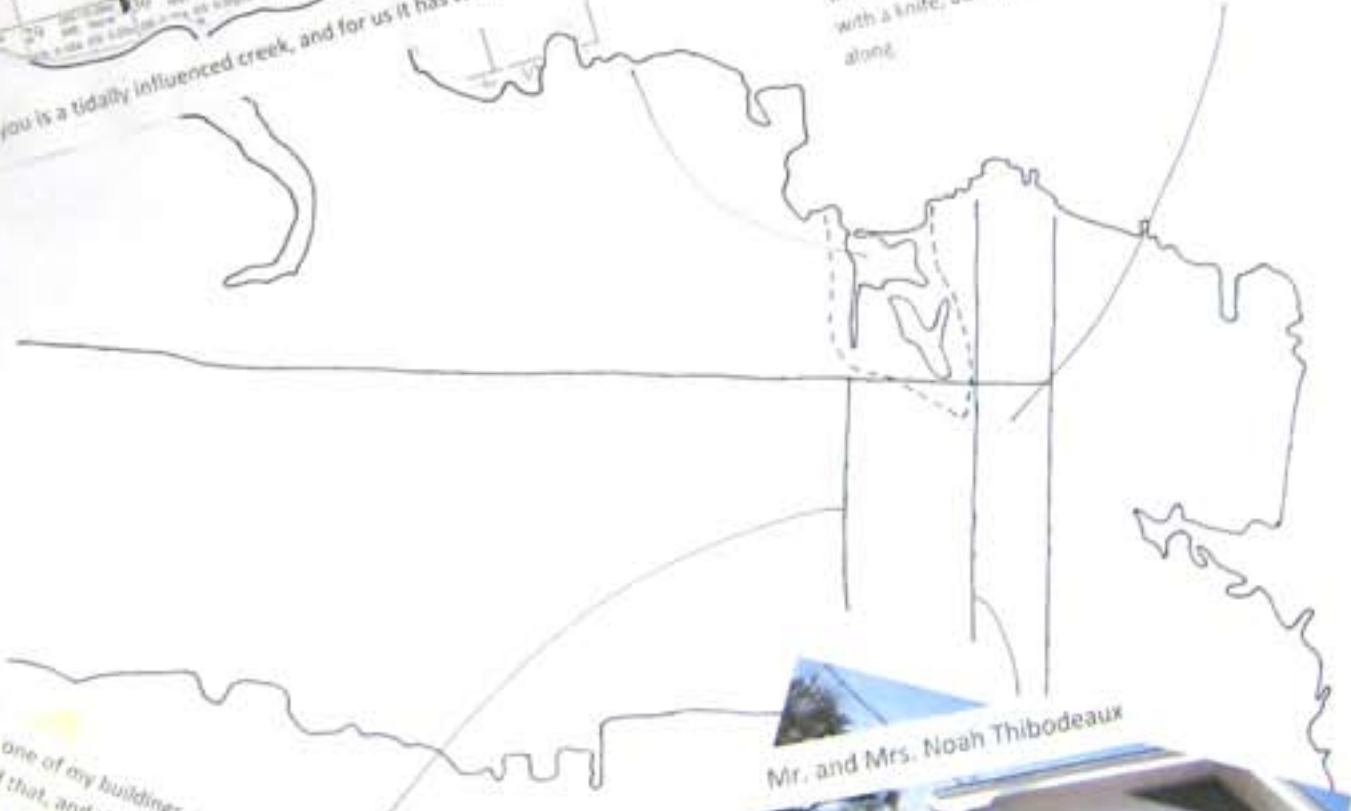

Mississippi Department of Marine Resources  
 Managing Your Marine Resources Today for a Sound Tomorrow

I've been here 12 years working at the Isle of Capri, before that I was with the casino up near Memphis. You could just cut the racial tension with a knife, but down here the Blacks, Whites, and Orientals all get along.

A bayou is a tidally influenced creek, and for us it has to be navigable

Insurance on one of my buildings, just for wind damage is 7,000 dollars. I cannot afford that, and that is not fire, theft, or flood insurance.

FEMA regulations have not been adopted, so I only have to raise my buildings to a foot above the crown of the road. I'll go up a little higher, but no elevators.

Charles Punzo

I have ten rental properties throughout Biloxi and at first I got help, but when the volunteers found out they were working on rentals, they stopped. The government has a program now, which is fine, but it has been two years and I only have five units up and running again.

Mr. and Mrs. Noah Thibodeaux

We had 9.5 feet of water, 7 feet inside. But our sons are retired and they are handy and got us back into our house.

The bayou, over past Ocean Spring, is Graveline, my son was fishing there the other day and caught 12 fish.
